Project Details
Background - Give a brief description of the Project including scientific framework and management implications (750 chars)
Methods - Give a brief description of methods including data availability (1500 chars)
Keywords (300 chars):

FS-4000-0008 2 | Page Project Number:

Products - Give a brief description of anticipated products. (750 chars)
Schedule of Activities - Listing of major events and timeline (750 chars)
Describe stakeholder involvement in this project - (e.g. How involved are managers and/or Forest Health Protection partners
nvolved in this project?) (750 chars)

FS-4000-0008 3 | Page Project Number:

#### **Justification**

Please describe how this project addresses each of the following Evaluation Monitoring selection criteria:  a. Focus on priority issues within identified grant categories (500 chars)
a. Focus on priority issues within identifica grafit categories (500 chars)
b. Significance/Impact of forest health issue (How does this project fit in to the Forest Health agenda?) (500 chars)
c. Scientific basis (How is this project supported by theory and practice?) (500 chars)
d. Community Engagement (How does this project involve communities and Tribal Nations and advance environmental justice? See proposal guidelines for more information) (500 chars)
Justice. See proposal galacimes for more information, (500 chars)
e. Budget (500 chars)

ear 1 Notes (1000 chars):			

<sup>\*</sup> Funds allocated for "Travel to Meetings" in year 1 will only be approved for proposals requesting a single year of funding.

<sup>\*\*</sup> Non-Federal Matching (cost sharing) funds are raised from outside sources to increase the level of support provided by the Federal Government. This includes both cash and in-kind contributions.

<sup>\*\*\*</sup> Leveraged Funds are raised from outside sources to increase the level of support provided by the Federal Government (including cash and in-kind contributions) beyond the non-Federal matching requirements.
